THE STARVING CHILDREN.

"*One touch of nature makes the whole world kin.*" The graceful charity of the members of the English Episcopalian Church in this city, in giving the year's receipts of their poor box to Mr. Carroll's fund for the Starving Children in Ireland, obliterates the dividing lines between Catholic and Protestant here and makes us all akin. We really find ourself poor in words to express our high sense of such true Christian charity, which is enhanced by the belief that the poor children in Ireland for whom Mr Carroll appeals are for the most part Catholics, and consequently it was more to be expected that the poor boxes of our own churches would have contributed to the fund.

With much pleasure we also dwell on the fact that the first response to Mr Carroll's appeal was from an English merchant, and so far as the collections have as yet proceeded, they are marked by the same grand international liberal feeling which, from some hidden cause, seems to thrive more abroad than at home. In this country, whether from climate, food, occupation, or other influence, there is very little of that spirit of fanaticism which is carrying all Europe to a Socialistic earthquake. The lines that divide the rich from the poor here are in many instances invisible, whilst the divisions which the very highest and best society in Europe suffers from, the conflicts of faith or of persuasion, are happily, for us all, in this country unknown.

Dreadful as in the present state of things in Ireland it is, we must all admit, the offspring of poverty; and although we all recoil at the terrible assassination revelations made by the Informers, and shudder at the idea of any of the members of the Assassination Society getting the upper hand, or having a voice in public affairs, still we can never conscientiously overlook that this truly awful state of things was generated by feeding millions on sea-weed.

The thousands of starving children in the West of Ireland are, perhaps the most afflicting sarcasm on the abilities of British statesmen. Such things should not be, since before High Heaven these poor, innocent, suffering children have as good a right to live as the children of the aristocracy that live on the fat of the land. One hundred years ago this sad state of things existed in France, but it brought its own remedy, and it would long ere this have worked out the same vindication in the British Empire but for the liberal reforms which mark every Parliamentary session since the passing of the Reform Bill. Englishmen, take them all in all, are about the most generous, most liberal and most enlightened people on the face of the globe, but they have grown in advance of their own institutions.

For centuries the system of legislation has been the rich legislating for the rich, the landlord legislating for the landlord; it is so even to this very day; but the intellect of England recognizes the abuse, the absurdity, and hence it is that reforms are often carried by a vote of the House of Commons that in other countries could only be won by the remington or the sword. The English nation, with Mr Gladstone at its head, recognizes that at last it must begin to legislate for the poor man, and whatever class or institution opposes must inevitably perish.

We are led to these remarks by the noble, open-handed generosity of our English friends. This opening of the Protestant Church poor box for starving Catholic children has surprised us into political confessions that we rarely intrude. Such true Christian charity speaks to the heart, and is worth all the acts of Parliament passed since Julius Cæsar landed on our shores; and may the prayers of the little children rescued from starvation by this donation bring blessings upon the true hearts that made the gift.

BAHIA BLANCA.

All that has been written about this progressive place, the embryonic Liverpool in the leading strings of British capital and brains, can give no fair idea of its gigantic advance. The great future of Bahia Blanca is guaranteed by its magnificent harbour and the Great Southern Railway; the present inflation that is noticed in the district must necessarily increase and assume great proportions until the final completion of the railway. Whoever makes an investment in Bahia Blanca may look forward to a speedy fortune, and those who bought lands here a year ago are dazzled at the results.

Only a years ago there was not a single foreign vessel in the bay; the Villarino, the Toro, the antiquated Bahia Blanca entered the harbor at long intervals with little cargo and few passengers. To-day there are several large British barques, a large steamtug, a score of Italian lighters. The Villarino landed on Easter Sunday 150 Italian emigrants and about 300 tons of cargo.

A large iron British barque, the Saraca, drawing 20 feet of water, is moored alongside the provisional mole of the great Southern Railway Co. The railway materials are loaded on trucks and are conveyed thence across the "cangrejal" by rail to the deposits in course of construction in what is called 'El Puerto Nuevo.' A score of wooden houses have been erected here of late for the many men at work on the great mole proposed by the Southern Railway Company. The Government, I think, has not yet approved of the proposal of the company, but fifty men are hard at work throwing up earth. At first it was thought by the engineers of the company that the 'cangrejal,' on which the mole is to be built, would be of no use, and that the necessary earth would have to be removed from a small hill, known as the Loma Paraguaya, but it was subsequently discovered that no better ballast could be found than this oily, muddy 'cangrejal,' which, exposed to the rays of the sun hardens, and forms a substance quite as hard as the familiar "tosca." These works entail the destruction of billions and billions of delicate crabs, which would be relished in the cafés of Buenos Aires, as an apology for the famed European prototype; the species has no doubt, like many other nobler specimens of zoology, degenerated in South America, but they still retain a certain flavor agreeable to the palate and forming a pleasing novelty on the table. The "cangrejal" covers many squares and is a living mass of these crabs, and has turned out to be the very best foundation for the proposed mole, which will probably cost £40,000.

Thousands of tons of railway material are lined along the rails from the mole, and a large deposit is in course of construction at present. The many wooden houses around, bearing the rancho features of the Pampa, are tenanted by Britishers, and the Puerto Nuevo may be considered an English village, which in years to come must necessarily be connected with Bahia Blanca. This will take place at no distant date, since houses are springing up like wild mushrooms from the town in this direction; all these houses are built of bricks and bear the features of very recent construction; they stand like isolated ombus in the pampa, and although they must be considered a very poor specimen of architectural development and bear an inveterable South American, nay, Indian, appearance, they always point to the advance of Bahia Blanca and to the secret springs that are propelling the old town to the Puerto Nuevo. Two years ago it was a dangerous risk to venture as far; the Cemetery is only a few squares off, and a score of months ago when a corpse was buried, scouts armed with remingtons were sent to protect the funeral and the sacred rites of the dead.

Times have changed since then; to-day the Bahia Blanca race-course stands where the Indians encamped not long ago. It was Easter Sunday, and 500 gauchos and others had congregated for a meet. The turfites formed a most heterogeneous set, and the stakes ranged from 10 to 10,000$m/_c$; considerable excitement attended the affair. Our friend Schütt's won by several lengths. The favorite was heavily backed, relatively speaking, and much money changed hands.

The town is a few squares off and the spires of the church formed an agreeable and prominent feature in the midst of the flat and pampa-roofed houses of the town. The church has, no doubt, few claims in architectural beauty, but in its way, it is an immense improvement on the surrounding buildings in the Plaza. The plaza is large; a band played in the centre and an enterprising acrobat was making a pot of money, jumping and running, and in fact astonishing the gauchos of the place. A fair sprinkling of women, clad in all the glaring colors imaginable, looked on and seemed to enjoy the antics immensely. Society in Bahia Blanca is quite as embryonic as the place itself, and the less said about same the better. The great "rendezvous" at night is the 'Confiteria' in front of the hotel (?) of the Five Nations. There are five billiard-tables in the place, and all the brands of wine fabricated in Buenos Aires. The tables are always crowded, and the owner is making a fortune. The hotel in front is a true specimen of a camp fonda with a few appendages of civilization. You cannot secure a table to yourself, and a dirty gaucho or an odoriferous darkie may be dining at your elbows. There were about one hundred people dining in the saloon. I noticed a fair sprinkling of Englishmen, amongst others, H. M's Vice-Consul, Mr Goodhall, Messrs. Wormesley, Walker, Harris, Wells, etc. Mr Mendez, the popular broker, was also there with a party of friends who had lately arrived to witness the advance of this town. They are all landed magnates and have caught the ball on the hop; they are renting their camps at the rate of 20 to 25,000$m/_c$ per league. Messrs Tornquist and Bennert and others had left in the Toro during the week, after a short sojourn on the magnificent estancia belonging to the Belgian Company.

The very best feature of Bahia Blanca is the number of Englishmen who have settled there. What with British capital in the railway and British energy, the place is bound to go ahead with increased velocity. Italians are pouring in from all sides. Mr Barollo has a splendid establishment in the plaza, where every imaginable thing can be had, he intends putting up a furniture store also. Whoever doubts the progress of Bahia Blanca should visit the place. Its present amounts to little, but who can gauge its future? A general transformation is taking place, and houses and business are extending in an incredible ratio. Those who have settled in Bahia Blanca are now reaping the most brilliant results, and there is room for thousands more. No place in the country has the future nor vitality of this embryonic Liverpool.

Unhappily, there is no remission as yet in our yellow fever epidemic, swelling the city mortuary returns with four to twelve daily, without including the mortality, said to be large, among the cases sent out of the city to the Maritime Hospital, which has been this year made the receptacle of yellow fever patients, who are excluded from the city hospitals.

The Rio de Janeiro Custom House, preadvised by a denunciation, has made a seizure of 43 pieces of silk imported by an umbrella house of this city and presented for clearance as a mixture, in equal parts, of cotton and silk, but which, on close examination, was found to have only 17 pieces of such material, the 26 other consisting of pure silk, only the first three metres of the pieces being of the mixture of cotton and silk. Besides the confiscation of the goods the house will have to pay a fine of about 10,000$, which, however, the house can easily afford to pay, as it is said, many similar lots had been previously passed without detection through Rio Custom House.

DYNAMITE OUTRAGE

CLOSE TO THE HOUSES OF PARLIAMENT

On Thursday night, at nine o'clock, the police on duty near the Home Office were startled by a loud explosion in the immediate vicinity of their beats. The explosion was followed by the shivering of every window in Parliament-street, a rain of glass falling on the pavement, the partial destruction of the King Street Post Office, and the throwing down of a high wooden fence which encloses some waste land in Parliament-street. On investigation it was found that a portion of the facade on the Local Government Board Office had been blown out by an explosion of dynamite, and that large blocks of stone and pieces of glass were lying upon the pavement. The cause could not have been gas, as there was no smell whatever, except that evolved by percussion caps when struck. The interior of this portion of the building was also much damaged. No one appears to have been much injured, but several passengers in the adjoining streets were cut by the falling glass. It is surmised that the explosive substance was placed in an angle of the wall, and exploded by a time fuse. The police are investigating the matter.

OVERSTOCKING.

II.

Epidemic diseases are extremely scarce amongst camp people as well as amongst flocks here, and much more frequent in Europe, where people live closer together, and the animals are reared in stables a great part of the year.

When in 1873 out of 60,000 head of cattle on one estancia in Salto 30,000 died, this was attributed to "llagas," which I believe was right; but when in 1880, 500,000 head died in this Province, there was no excuse for it, at all; not sufficient food, *i. e.*, the camps were over-stocked.

The frost and snow of that season was no excuse at all, since in Azul, Juarez, etc., there was very little mortality, although it is much colder there, and the camps are inferior to those of the North, whilst in the splendid camps of Pergamino, Arrecifes, Rojas and Salto, 70 leagues farther to the North, there was a great mortality.

The frost killed only animals that were in poor condition, or those whose backs were open by the scab. If not by contagion, the scab originates by too little food; if I forget to give water to my oleander trees, they will be full of 'bichos' after a few days; the same is the case with badly fed animals.

Here you have the explanation for the less mortality in the colder South during the snow storm of the 14th September 1880, since estancieros in the South never found it so easy to make money as those in the North, and in consequence they are more careful and do not over-stock the camps; hence less mortality in times of "epidemia," and better quality of the wool.

Everything that is said above about cattle can be said with reference to sheep, and, if in 1880 few sheep died by the cold, this was casual and is to be attributed to the fact that the sheep were at the time in pretty good condition and besides had eleven months wool, which kept them warm.

I see that Australia, which is in a worse position as regards camps than the Province of Buenos Aires, gives an extremely superior article; and also the Banda Oriental, which has only partly as good camps for sheep as ours, brings considerably superior wools to the market than we do.

In the Continental Exhibition the Montevidean barraqueros Portillo and Balparda exhibited samples of five different estancias, which left the best of our wools far in the shade, being just the thing which is required for the present wants of the manufactory.

The Members of the Prize Jury were puzzled by this, and not being able to grant a gold medal, which only could be given to new industries (some of the other Juries mistook old sofas etc., for new inventions) had to content themselves by giving those gentlemen "un voto de felicitaciones."

One of the reasons that we have not such good wool as the Banda Oriental is, that there, much more money was spent by the first ones who commenced the sheepfarming business and who, as a rule, were wealthy men, to many of whom sheepbreeding was not a novelty; thus they formed a good original stock and gave a good example to the natives, whilst here, less capital was invested in the beginning, as most of the pioneer sheepfarmers commenced with small means.

This is no longer an excuse, since there is sufficient money in the hands of our estancieros to buy as good sheep and rams as they like.

EASTER FESTIVAL.

ST. JOHN'S ANGLICAN CHURCH.

A very pleasant festival in celebration of Easter Day was holden on Sunday morning, by the flourishing Sunday-school in connection with St. John's Anglican Church in this city. The festival was announced to begin at 9.40, and fully ten minutes before that time every seat was occupied, and the tastefully-adorned schoolroom presented a very pleasant and encouraging appearance.

The Rector, Rev. Francis Smith, M.A., M.D., was in the chair, supported on either side by the Rev. Arthur G. Lennox Robertson, M.A., and the worthy Superintendent of the school, Professor J. J. J. Kyle.

Besides the members of the school, embracing about a hundred young ladies and gentlemen with their teachers and officers, there were present—Mr., Mrs. and Miss Perry; Mr. George Cooper, Mr. and Mrs. Farrar, Mrs. Smith and other friends of the school who had been courteously invited to attend.

The exercises, which were set forth on beautifully illuminated programmes, a copy of which was given to each person present, began with the singing of the Easter Carol—

He is risen! He is risen!
Tell it with a joyful voice.

This was followed by the Lord's Prayer and two or three appropriate collects by the Rector, after which the carol;

Angels roll the rock away!
Death yield up the mighty prey!
See, the Saviour quits the tomb,
Glowing with immortal bloom.
Alleluia! Alleluia!
Christ the Lord is risen to-day

was sung. We make no comment on the singing, because most of those who read this report are sufficiently aware of the excellence with which the children of this flourishing school are trained to render these pretty hymns, and we do not consider that they stand in need of any further laudation on our part.

After the carol, Professor Kyle read an appropriate Scripture lesson, taking for the occasion the Evangelist St. John's account of the Resurrection and of the appearance of Our Blessed Lord, first to Mary Magdalene and the holy women who accompanied her, and subsequently to the two disciples on their way to Emmaus, where He made Himself known to them, in the breaking of the bread.

This being over, the worthy Rector. Dr. Smith, made a very fine address to the school, previously to commencing which he gave it as his reason for addressing them himself that he would not be likely to enjoy another opportunity of doing so for some time, as he purposed visiting England early next month. In the course of his address the reverend gentleman fully proved himself a master of his subject, which was not a sermon, but an address to children, fraught with pleasant and instructive anecdotes and stories, and conveying truths of the most momentous kind to the young hearts of his hearers in a manner not likely to be forgotten. We are sorry that want of time and space prevents our reproducing any part of this address for the benefit of those who had not the pleasure of being present; but we must rest satisfied with merely congratulating the Rev. Doctor on his ability not only to feed adults with strong and invigorating spiritual food, but also to supply for the children the pure "milk of the Word," which can make them grow up into men and women in Christ Jesus, and to enjoy religion and its ordinances from their youth up.

At the conclusion of the address, which was listened to with reverent attention by all present, the carol,

In Thy glorious resurrection,
Lord, we see a world's erection;
Man in Thee is glorified;
Bliss for which the Patriarchs panted,
Joys by holy Psalmist chanted,
Now in Thee are verified,

was sung and the Benediction was pronounced.

After this three trays full of choice and fragrant bouquets of flowers were distributed to all present by Mrs Smith. Besides this, a beautifully bound copy of the Oxford Bible was given to each member of the school, including the teachers. This valuable edition of the Sacred Scriptures forms a full Biblical library of itself, there being bound under one cover the Old and New Testaments, a complete Concordance of the Bible, a chronological index of Sacred History, and other most valuable aids to the study of the Scriptures. Though every copy of this work is substantially the same, those given to the teachers—Misses MacGregor, Florence Tucker, Robertson, and Mrs. J. A. McLean and Messrs. W. J. Reynolds and McLean—were bound in flexible morocco with turned-down edges, and were, besides being very valuable helps to their labour of love, very handsome volumes for their library, etc. It is hardly necessary to state that these books were a present to the Sunday School from its tried and trusty friend, Mr. Gardner B. Perry.

Previous to dismissing the school, Professor Kyle announced that the opening of the poor-box, which takes place annually at Easter-tide, would be effected, this year, next Sunday, and that the contents, which are always devoted to some charitable purpose, would be contributed to the relief of the poor children in Ireland, on whose behalf appeals are now being made. After saying a few words of sympathy on this subject, Professor Kyle said that the opening of the box would be deferred till next Sunday, so as to give any one desiring to increase the amount of its contents an opportunity of doing so.

It is very gratifying to see the great festivals of the Christian year celebrated in so becoming a manner as they invariably are by this prosperous Sunday School, and we take this opportunity to wish it increased happiness and success.—*Herald.*

LONDON GOSSIP.

There is no truth in the statement that Mr Forster is going out as Governor-General of Canada. The idea has not been seriously entertained, and Mr Forster would reject the post if it were offered to him.

An interesting statement was made in the small hours of this morning by Mr Shaw-Lefevre. He inadvertently let fall the fact that it was intended to amend the law of distress in England by the Tenant Right Bill which the Cabinet is preparing. He can hardly act save upon the lines of the report of the Select Committee which recently considered the subject. That committee recommended that distress should not be for more than a year's rent. Mr Shaw Lefevre will put that provision into his measure.

Another movement on behalf of Ireland has been begun by a conference, mainly of members of Parliament, held in Westminster Palace this evening. I am not at liberty to mention names, but I may say that the best known and most respected independent English Liberals are joining the Irish Liberals in an attempt to inform public opinion more accurately as to the facts of Irish grievances. The committee believes that there is more work to be done, and that soon, in regard to Ireland; that in the near future a large extension of local and popular institutions will be conceded; and that the Land Act will have to be amended, at least in details. They therefore form themselves into an Irish Political Committee with objects similar to those served by the Eastern Committee and the Greek Committee during the Eastern crisis and the Hellenic struggle. This committee proposes to promote discussion, to disseminate information, and to put Ireland and England more distinctly 'en rapport'. Of course, the importance of such an institution depends upon those who support it, and at this moment it is impossible to give names; but when the names are given, which will be soon, the Irish Political Committee will probably turn out to be one of the most important things which the present session has produced.

I hear that the National Liberal Club has already got £50,000 of the £100,000 which is necessary for the building of a good and sufficient club-house. It has also obtained no less than £13,000 from life members alone. It is proposed, when a temporary club is opened, to have a house dinner every night, or rather a *table d'hote*, at seven o'clock, at a very moderate cost, and to carry on the club in the plainest and simplest way.

The Irish Sunday Closing Bill was to have been read a second time in the House of Commons to-night, but a protest came from Ireland. Nobody in Ireland had seen a bill which was, nevertheless, to be forthwith adopted. Admitting the reasonableness of this plea, Lord Carlingford has postponed the second reading until Thursday.

I hear on very good authority that on the very day after the Phœnix Park murders the names of the very persons at present accused on the evidence of Kavanagh and Carey, including Carey himself, were in the hands of Mr Mallon, Mr Jenkinson's predecessor in Dublin. Further, a warrant is issued for the arrest of "Number one," whose name has not yet appeared in any of the journals.

Some disquieting rumours continue to pass current concerning the health of Mr Gladstone. His appearance just now certainly is peculiar. The rich brown wherewith his features were tanned when he returned to England from Paris is passing into the peculiar yellow which most travellers know so well. But his step is as elastic as ever. Yesterday he went through Regent-street at his usual swinging pace, with no aid from any stick; and as he strode along, his scanty locks flowing in the cold breeze, he seemed a very Hercules beside the unhealthy "mashers" who choose this thoroughfare to idle in. That he has not yet exerted himself much in the House of Commons is due to the fact that he has had no need. When the hour comes his opponents will probably find that, despite their predictions of his failing strength, he is still one too many for them.

"You must not yawn in the middle of your speech!" said poor "Brother Fred" to Lord Hartington after one of his Indian Budgets. 'How could I help it?' said Lord Hartington; 'it was so decidedly dull." Decidedly dull, indeed, was the speech on the Army Estimates last night—full of facts well arranged, not a word wrong, everything as it should be; but the manner was excruciatingly wanting in animation. The very colonels could not stand it, and went away to dinner. So frank was Lord Hartington, and so modest, that he disarmed criticism. He made no sort of suggestion that he was responsible for a single good thing that had been done. Not he. Nor did he profess to know much about an office to which he had so lately come. He saw without depression the flight of the House; he struggled without much effort through his speech; and when he had done he sat down with the air of a man who has done an unpleasant duty. When he becomes Prime Minister there will be no 'fireworks.'

Proper-minded persons will hear with regret that Mr Biggar is being subjected to remark for his Parisian adventures. Ill-bred members now talk loudly of Fanny, ask one another about the kissing of boots, and keep up a bad-mannered conversation about obstacles. Mr Biggar takes it all very coolly, always appears not to notice, and smiles grimly to himself when he thinks of the vengeance he will some day have when he has the House at his mercy.

EDITOR'S TABLE

The latest telegrams from Europe say that Her Majesty the Queen is still suffering from the effects of her fall on the staircase in Buckingham Palace, by which one of her knees was hurt. The explosion at the Local Govt. Board took place at 9 p. m., doors and windows were shivered, but nobody was killed. At 7 p.m. on the same evening the *Times* office was the scene of another explosion which did little damage. The fears of the commissioned officers in the French Army that the Government would not stop at the summary cashiering of the Princes are already realised. There is a split in the new French Cabinet, because the Minister of War wants to dismiss General Gallifet—one of the best officers in the army—from the command of the cavalry. The gods evidently are not for the Republic, and mean to destroy it. The threatened General is the Murat of the French army, and most popular.

Summer has suddenly come back on us. The heat yesterday and on Monday night was all the more oppressive after the spell of pleasant Autumn weather we have recently enjoyed.

Mr. Nicholas Lowe leaves to-day for Europe in the Strabo. A special steamer will take him and his friends to the Outer Roads; it leaves the Mole at noon. We wish Mr. Lowe a pleasant trip and a speedy return.

We received the following note yesterday, suggesting a new source of wealth for this country:—

Caballito, 9th April, 1883.

To the Editor of the *Standard*

Sir,

Could you or any of your subscribers oblige by informing me, whether the land in any of the Provinces of this Republic is suitable for the growth of the Currant tree (uva de Corinto). The currant crops in Greece, for some years past have not been nearly so good as formerly, owing I believe to Phylloxera and other causes, deterioration of the land etc. A rather hilly country is best adapted for the growth of the currant tree; the fruit when ripe and picked, being generally dried on the slopes of hills. From the accounts I have read of the Provinces of San Juan and Mendoza, I think they might possibly be suitable. Friends of mine in Greece, and who are connected with the currant trade would be glad to have every informatien on the above subject.

I remain,
Dear Sir,
Yours faithfully.
E. Monesty Crowe.

We had the offer of a special correspondent at the Hague yesterday, but cannot afford to pay him, unless our Dutch subscribers are willing that we should double the price of their paper monthly. Those who are so willing will please say Aye. The Noes need not say anything.

The new Iron Works of Messrs. Dawney and Co. in Calle Moreno, are proving a splendid success. The firm is full of orders, one of them to erect the sewage engines, made in England by the renowned firm of Easton and Anderson, who have also completed and forwarded a new system of hydraulic lift (planned by Mr. Dawney) for the private residence of Mr Tornquist in Calle Florida. This lift was exhibited in London and caused quite a sensation there, as no one would think of having a stair case in his house when he can buy one of those "Dawney Lifts." We believe Mr. Tornquist's is the only lift of any kind in Buenos Aires.

The *Operario Italiano* declares that a few good architects are badly wanted here, as the style of architecture in this city is anything but perfect. That's a fact. Yes Sirree!

The telegrams say that an attempt was recently made in Washington to qualify ex-Secretary Blaine for taking an unpleasantly prominent part in a funeral. Happily it failed. Mr Partridge, the U. S. Minister in Lima, has been recalled for joining the European diplomatic birds there in their suggestion of intervention to stop the war. The Chilians are pouring fresh troops into Peru, to annihilate Caceres.

Our excellent colleague the *Italo*, published in the Boca, says that the Riachuelo now smells like Eau de Cologne, as the whiskey distillery down there has stopped sending its refuse into the stream and making bad punch of it.

The Saint Cloud Fete produced nearly £4000, or about the same as our British Bazaar last year. Not content, however, our Gallic friends intend to have another day of it next Sunday, when they hope to get within measurable distance of £5000. We wish them every success.

The doctors here have at last discovered that clothes worn by the bedside of small-pox patients, the trappings of hearses and mourning coaches, etc, are most fruitful means of spreading contageon. Strange to say, they knew this in Europe ever so long ago.

Some of the London hosiers are selling 'digitated stockings' or foot gloves, but not even the endearment of hygienists has made them popular.

The candidateship of Mr Gregorio Soler for the next Governorship of the province gains ground daily. The estancieros *must* elect him, or they will have to build La Plata, and be utterly ruined. If Mr Soler be elected, he will stop the works there, sell the bricks by auction, and make Bahia Blanca the capital. Hear. Hear. Hurrah!

Mr Peter Castillone, a haberdasher, went out to get shaved the other night, and when he came back he found the shelves of his 'tienda' as bare of goods as his chin was of stubble. The barber shaved his chin and the burglars shaved his shop. Poor Peter!

"Why is a horse the most curious feeder in the world?—Because he eats best when he has not a bit in his mouth."

The "grano malo" is very bad about Gualeguaychu, and several people have died through catching it from the dead cattle.

They are building two dams across the river at Cordoba, to secure a better supply of water in dry seasons. Better late than never.

The church of St. Dominick at San Juan was half destroyed by a fire a fortnight ago, but no lives were lost.

Dr. Plaza, Minister of Foreign Affairs, invited the Diplomatic Corps to join him in a trip to the Admiral Brown ironclad on Sunday, and the distinguished party had a jolly day of it.

The Cordoba architects are in despair: There is not a day labourer to be had, all being engaged on the new Gas Works.

The Entre Rios Government must be exeruciatingly hard-up. Its bill for 4,000 pats. was protested by the National Bank last week. The new Governor, General Racedo, must change all this.

The social morality of Buenos Aires is at a low ebb. A girl of 15 eloped for the *fourth* time the other night with one of the "conocido" class, who are formidable rivals of the tramway guards in ignoble exploits of this kind.

The Capitania, or the Navy Office, has decided to place a new pontoon in place of the sinking hulk Vanguardia. It is about time. The poor sailors on board the latter are momentarily in danger of going to Davy Jones's locker.

The time for paying Patentes in the city has been extended to the 20th inst; after which date no mercy for the "moroso" tribe.

Private letters from London say that the general opinion there in the best-informed circles is, that there will be a revolution in France before six months are about, as all the signs that usually precede such a change in that country are now visible.

They have put on ten days' quarantine in Montevideo for vessels from Brazilian ports.

IT IS GENERALLY ADMITTED THAT there cannot be anything more exquisitely delicate for perfuming the handkerchief than MURRAY & LANMAN'S FLORIDA WATER; but is great and distictive property is its adaptability to the uses of the bath. It is the only perfume that we know of *especially and particularly* suitek to use in this way. The power it has of imparting to the waters of the bath great soothing, refreshing, and invigorating effects, is peculiar to itself.

There was a great let-up in business on the Bolsa to-day caused by the rumour that telegrams from London had come out of a most favorable nature, respecting the Llambi Campbell loan; we did everything possible to discover the source of the news, but could get nothing beyond the hear-say of brokers, and some of the shrewdest brokers sold heavily on the strength of the rumour; nevertheless, some very strong people were buying and they preferred to buy for cash, and on time only from the strongest sellers. As all the speculation of the day went into Cedulas, Bank Shares were more neglected than ever. The Bolsa is now too small for two stocks, when it is not Bank Shares it is Cedulas, or vice-versa. National 5 o/o Bonds one small lot at 73½, which is an advance in the rate.

The great news of the day was the high amortization of Hard Dollar Bonds, nearly 5 o/o higher than last quarter, and one broker who thoroughly studied the market bought yesterday 30,000 National Bonds at 88, which he amortized to-day at 89½. We give lower down the bids and prices of amortization.

We feel andisguised pleasure in calling attention to this most favorable Stock Exchange list. It speaks volumes for the credit of the country, which for 22 long years we stood by and supported, and in a letter received per Britannia from London our correspondent says:—"There is an increasing interest felt in London regarding R. Plate matters, and it would gratify you to see what value people set on the *Standard*, which is in fact regarded as the only authority on South American matters."

Cedulas Series E opened cash at 85⅞ and closed at 86, 93,000 sold; and for end of month 235,000, opening at 85⅞, closing at 86; and for May, 80,000 at 86½, dropping to 86¼, and closing at 86½. In Bank Shares a mere trifle sold during the day; cash opened at 104½, closed at 104⅝. For end of month prices began at 105, dropped to 104¾ and closed at 105, some 1400 sold; and for end of May 100 sold at 106. This closed the ring business.

It gives us the most supreme satisfaction to state that on last Sunday the 'empalme' works of the Western Railway and the Transandine Railway were begun, and will be pushed ahead as fast as possible; 450 metres have to be made. There are at Mercedes 10,000 tons materials for this new line, and on the way out the Java, 1400 tons, and Truth 900 tons. Two vessels are also coming out filled with materials to be discharged in Rosario. This shows that there is no delay. Mr. Cruikshank, resident engineer of the Company, has arrived, and we welcome him to the Plate.

The new Bolsa people were in high glee today at Dr. E. Costa's report on the Statutes, etc. The Company has now deposited in Provincial Bank 50 per cent. of shares, 120,000 pats., and 15,000 pats. also deposited by the old Bolsa Committee for their 300 shares taken in new concern.

The contractors for the works of the Transandine Railway are Messrs. Hume Bros. for first section, Mercedes to Junin; and Sanchez and Maimann for second section, Junin to Mercedes, San Luis.

Parties owing National Government lands away down in the far South, and on the sea Coast and Colorado and Rio Negro, will be much interested in the news that the National Department of Engineers has sent in to the Minister of Hacienda the surveys made, with the view to have same approved, and the Minister's decree approving of same is expected out in a few days. These lands are embraced in what is termed the 4th, 5th and 10th Sections, and we can safely admit that but for the long delay in getting the titles to these lands, the lands on the rivers and on the sea coast would have been long ere this stocked with cattle.

It may interest the market to know that in the returns of the private banks to the Stamp Office to assess the stamps on fixed deposits the figures stand so:—

Carabassa Bank	$37,976,695 m/c
Italian Bank	20,066,324
London and R. Plate	31,972,494
English Bank R. Plate	10,614,008

As many of the former depositors in the Banks now invest in Cedulas &c., these fixed deposits are not so large in this market as formerly.

We have been favoured with the following list of the new Directors of the Pagaré Committee for the ensuing period:—

Titulares—
Mr. Lezica,
Mr. Portes,
Mr. Koch,
Mr. Kohlstedt,
Mr. Templeton,
Mr. Oyler,
Mr. Meyn.

Suplentes—
Mr. Kinch,
Mr. Hecker,
Mr. Möller,
Mr. Niebuhr,
Mr. Puy.

We hear so little of this Committee now that we gradually forget the sphere of its usefulness. Nearly all the old houses of this market have had good reason to feel the great change which this pagaré business effected. Never at any previous period have we had such a supply of pagarés in this market as now; indeed, some bankers think that for the same goods there are three or four pagarés running in the Bank. The houses many years ago held all this business to themselves by selling without pagaré and collecting each Saturday; but business in those days was carried on on a very different principle, there being less credit and more capital in the dry goods business. It is for the merchants themselves to decide how far the change has benefitted the market.

The sales at the ring were as follows:—

Cedulas—
For cash A 2,000 at 100¼
For cash E 3,000 at 85⅞-¾-⅞-86
For April 30th E 235,000 at 85⅞-¾-⅞-86
For May 31st E 80,000 at 86½-¼-⅜-½
Sales, 410,000

National Bank Shares—
For cash 125 at 104½-⅝
For April 30th 1,400 at 105-104¾-⅞-105
For May 31st 100 at 106
Sales, 1,625

National Bonds, 1881, 5 o/o—
For cash 1,500 at 73½

Letters from London per Britannia state that Montevidean coal merchants charter there, at any rate, asked vessels to load coals for the Plate.

Mr E. Ramsay, of Montevideo, was welcomed; he reports all projects and schemes down there, and very little chance of anything coming out of them. Tallow here rules firmer than yesterday. Mr. Roth, barraquero of San Nicolas, was also welcomed; he reports everything smiling in the beautiful North. Mr Dennecke bowed to all his old friends on 'Change and leaves to-morrow in the Pleiades. He has large landed properties and although he says he goes for good, we accept any wager that after a short Rhine sojourn he returns.

We were in error yesterday in stating that Messrs. Pico and Gomez arranged the land question for Mr. Goddard. The business was arranged by Mr. W. White, one of our most influential and representative land brokers, and who has the credit in the market of always selling and buying land. To-day he bought for account of two English buyers in England, 8 square leagues, Media Luna, reserved price; but a price to make people who bought Loreto camps very contented, and a price that will put Bullrich in good humour for his auction of 21 square leagues for the 25th. Apropos of these lands, it is a great blunder for auctioneers to call public attention to their lands without having maps or plans of same. To-day over 40 people called at our office to see the plans of these lands. We could show them nothing save Chapeaurouge's new map of Santa Fé, or Fitzroy's map of the harbor of San Blas.

The sale of a good house outside Plaza Constitution, on a site 25 x 100, is reported for 7,000 pats.

Exchange brisk enough, and bills passed for Pleiades at 49⅝ London; 5.19 Paris, 5.21 Antwerp. Exchange on Montevideo flatter.

Three thousand salted hides, Becker and Costa, 64 lbs., at 50½ rials; also 3,000 do Berisso's without condition 49¼.

Mr J. A. Maguire, Argentine Consul General in Canada, was welcomed on 'Change. To-morrow he will have an interview with the Lord Mayor in company with Mr Kock, the corredor King, on Municipal business.

Eight leagues of land, outside of Guamini, rented to-day at the rate of 15,000 m/c per league. How rapidly the lands outside are filling up.

At afterhours Cedulas shot up to 86¾, a large business done, closing hard as a rock buyers, and 86½ for May.

Discount brokers say that the amount of paper discounted yesterday at different banks reached 15 millions currency, much of it done in gold.

Mr. Vallee, the Bianconi of the Plate, inaugurated his Lavalle diligence yesterday; soon we shall have his coaches running to Trenque-Lauquen.

A French merchant on 'Change this afternoon assures us that the news published about the state of affairs in Paris is grossly exaggerated. He has letters per La France from his brother, and they say nothing of it.

The amortization of Hard Dollar Bonds took place to-day. The following were the bids; those with asterisk were the ones accepted. As for 1876 Bonds, if any one offered at par they would have been accepted, as the bids were short:—

In no previous year have we had such an exodus of River Plate residents to Europe as at present; every steamer leaving strips High Life of some of its members, our wool market of a buyer, or our Bolsa of some eminent "corredor". The La Plata, the finest of all the Royal Mail steamers, will leave this crowded; already the following distinguished parties are booked:—

Mr. Alejandro Ocampo and wife
Mr. C. Pellegrini and wife
Mr. C. Santa Maria
Mr. Gowland
Mr. Candara and brothers
Mr. E. Tornquist and wife
Mr. Llavallol and family
Mr. Burgand

The quarantine now established in Montevideo is ten days from date of sailing from Rio, which means 5 or 6 days on the Flores Island.

Mr. Thos. Agar, the talented manager in Glasgow of the house of M. Forrester & Co. of this market, is expected out in the Leibnitz. Mr. Agar has always proved in Scotland a ready friend of the R. Plate and never missed an opportunity to defend its credit in the home papers, as our readers well know from the frequent extracts we have published.

Another silver mine discovered in the Provinces; the new mine is in Salta and discovered by Messrs. Tejerina & Fessart. Samples are coming down to this market.

The business of the Provincial Bank has grown so that the old bank house in Calle Piedad, where the Provincial Government has at present its Telegraph, is required for new offices for the new department created to liquidate all old overdue accounts and protested bills. A very large suit of offices will be needed for so extended a business.

The sale of a square league of land in the Vecino is reported for one million currency, which seems a high price for that partido. Four leagues of National Government land have been sold in the 2nd section for $70,000 currency per league; Mr. Castex buyer.

3,000 capones in Castelli for $37 m/c each, and 2,000 in Lobos for $38 and 39 m/c.

2,000 cows "al corte" in Lincoln bought by Dr. Newberry for $200 m/c.

Various lots of capones, 10,000 in all, bought in Saladillo, Navarro and Lobos and 25 de Mayo, $36-40 m/c paid.

In the Sauce Corto 1,000 cows "al corte" sold at the rate of $160 m/c. Mr. A. Roca buyer.

Mr Atkins of Patagones, who is at present in town, is of opinion that the proposed irrigation scheme of turning the water of the Rio Negro into the Canada Grande, or Abra Grande, at the China Muerte, will be most easily carried out, as he says there is a fall from that point of the sea, and with a very little cutting the current of the Rio Negro will fall into the valley through which it will flow into the Bay of San Blas, which will make the Bay of San Blas the greatest commercial point along the whole coast, as there is nothing in the line of harbours to rival San Blas. Mr Atkins reports that a Frenchman who has bought 4 square leagues from the Government on the Rio Negro above Pringles, has arrived down on his land, with one thousand five hundred head of horned cattle, and has turned off the land the old settlers, which has caused a great hubbub down there. The Villarino has brought up no Indian prisoners, as at the time of her departure from Patagones they had not arrived down, but they are on their way and will reach Patagones about the same time as General Villegas who may be expected up here next month. It would be better not to bring these prisoners here, but to hand them over to Governor Winter who will make agricultural colonists of them.

The Provincial Bank, for reasons best known to its Directors, have ordered that henceforward all applications for discount must clearly state the class of business, profession and domicile of the applicant. The rule does not go so far as to require the age of the applicant, or the nature of the business for which the money is required.

We published in our last the sale of a "rodeo" of mestiza cattle, at the monstrously low price of $163 m/c each. This shows a fearful drop in the price of cattle, but we cannot think that the sale, although perfectly bona-fide, will establish a price, as we see "rodeos" of criolla cattle selling every day at $180 and even 200 m/c "al corte." We hear from the cattle brokers that there is too much cattle "al corte" offering in the market: there are no buyers for half the cattle offering. This reminds one what a splendid chance for those who bought the Loreto to settle on and stock their new lands. Two years ago it was hard to buy good cattle "al corte" even if you paid $265 m/c. To-day mestiza English cattle are sold "al corte" in the Cañada de Gomez for $163 m/c., which is indeed a gigantic fall, as these cows in 1881 were worth $350 m/c "al corte," being mestiza.

We have received the following for publication, and we call the attention of Dr Pacheco and the Directors of the National Bank to this well-founded complaint:—

"Dear *Standard*

"Allow me to draw attention to an inconvenience arising from the circulation of National Bank Notes. On Saturday last my Collector brought in several of these of $500 or $20 value; but on presentation of these same notes in payment of an account they were rejected, because it was discovered that they were stamped on the back with the name of a provincial "sucursal." I believe that even the central office of the National Bank will not receive them at par, and the "Cambistas" ask a heavy discount for negotiating them. We hope that the Bank Directors will put an end to this abuse.

"Yours &c.

"MERCHANT."

The Consolidated Bank, Limited, London.

The London and River Plate Bank, Limited, Buenos Aires.

This Company having purchased all the property, rights, patents, privileges and concessions in the Argentine, Uruguay and Paraguay Republics, formerly the property of the Companies known as the "Pantelephone," and the "Bell Perfecionado," is prepared to sell or lease telephones or telephone lines or use in any part of the Argentine Republic, the Banda Oriental or Paraguay. It possesses exclusive rights for all of these countries for the Bell and Blake Telephones, known throughout the Plate as the Bell Perfeccionado,

The only instrument used in the United States

And by the United Telephone Company of England and by nearly all the principal Telephone Exchanges of the world.

The company is now receiving the largest shipments, it is believed, of telephone material ever obtained at one time by any Company existing, including 650 complete sets of telephone instruments, 1000 miles of wire, 40 miles of cable conductor, and switch board and Central Office appliances all of latest and best manufacture.

The Company is not subsidiary to any other, and is under no obligation to purchase its supplies from any particular source.

It proposes to furnish the public of Buenos Aires with the best telephonic instruments obtainable, and the best service practicable.

Thus far, in consequence of the lack of Bell instruments, only four hundred of its nearly one thousand subscribers have been supplied.

The Pan instruments in use by the remainder will now as rapidly as possible be replaced by the Bell and a better service than any heretofore known in Buenos Aires will be the result.

Any information desired will be most cheerfully afforded on application in person, or by letter at the Company's offices 26 and 28 Calle San Martin.

Buenos Aires, March 25, 1883.

"PLOUGHS"

"PLOUGHS" "PLOUGHS"
Messrs M. Forrester & Co.
Beg to announce to the Public that they have lately introduced into this country with great success the
Celebrated Two and Three Furrow Ploughs
OF
Messrs. HOWARD
ENGLAND

These WROUGHT IRON PLOUGHS fitted with breasts and shares of steel, have been extensively used in the Provinces and are destined to supersede the light and flimsy wood implements made by the Americans.
By means of a simple hand lever the onward movement of the animals raises the plough out of work at the ends, thus saving the driver the usual hard lifting connected with ploughing.
The two Furrow Plough is drawn by a pair of bullocks, thus doing double the work of a single plough and still with only one man.
These "Multiple" Ploughs are now almost universally employed in Australia and South Africa, and in recommending these implements Messrs. Forrester & Co feel confident that they are well adapted to the requirements of the Plate.
In order to procure these Ploughs orders should be sent in at once, or disappointment may be incurred.
